STAT

[Redacted] of the AG is, at my request, up to speed on the KAL
shootdown and aftermath. He has gone through SOVA files, has copies of their
principal documents, and will keep current on these questions. I have not
asked him to write up anything, but to be a ready NIC resource person in the
event any of us should be suddenly tasked to prepare or participate in some
estimative exercise relating to these matters. A USAF pilot, [Redacted] has flown
RC-135 and other aircraft off Kamchatka and the Sea of Japan.
